

The eGig 11Mbps Wireless PCMCIA Card (eGWPC11) gives you the total freedom of staying continuously connected to your Local Area Network without being connected to any wires. With the eGWPC11 you can easily roam throughout your office, or home from one access point to another and continue to send and receive e-mail messages and use other network resources. The eGWPC11 is the perfect wireless solution for environments where cabling is difficult, or where mobility is necessary.

Product Features

- 11 Mbps high-speed Transfer Rate
Interoperable with IEEE 802.11b (DSSS)
Plug-and-Play Operation
Long Operation Range (up to 120m indoors)
Advanced Power Management Features
Rugged Metal Design with integrated antenna
Compatible with Virtually All major Operating Systems
Works with All Standard Internet Applications
Automatic Load Balancing and Fall-Back

Specifications

Table with two columns of specifications: Standards Compliance, Signal Type, Modulation, Host Interface, Antenna, Data Encryption, Frequency band, Channel, Data Rate, Coverage Area, OS Support, LED Indicators, Power, Temperature, Humidity, Certification, Dimensions, Weight, Warranty.
